EDUCATION:

Bachelor of Science, Civil Engineering

University of the Pacific, CA: 1984

PROFESSIONAL LICENSE:

Civil Engineer (License Number C45411), California, USA - 1989

SUMMARY OF EXPERIENCE:

29 years of technical expertise including a unique combination of heavy highway transportation infrastructure construction and maintenance management. Successful construction delivery of over \$500 Million of major transportation infrastructure projects, on-time and on-budget. This success is tied to a strong natural leadership ability, communication and people skills to have led a diverse and multidisciplinary workforce of 1,200; encompassing overall maintenance of toll bridges, roadways, facilities, design engineering aspects including civil, mechanical and electrical; along with the implementation of asset management in support of all facets of the transportation infrastructure system.

WORK EXPERIENCE:

California Department of Transportation (Caltrans)

1987 - 2016, 29 years

Deputy District Director, Division of Maintenance

2008 - 2016 (Retired)

Executive responsible for all aspects of transportation infrastructure maintenance for the nine San Francisco Bay Area Counties, population of over 5 million, highway system with over 7,000 lane miles, ten major tunnels, and seven major toll bridges including the new \$6.4 Billion San Francisco Oakland Bay Bridge. Successfully managed an annual operating budget of over \$180 Million in addition to managing a multi-disciplinary and diverse workforce of nearly 1,300. This includes Engineering, Environmental, Traffic Management Center, Emergency Operations Center, Heavy Equipment Fleet Management, Field Crews and operations for all maintenance activities and projects for the transportation network.

Chief Construction Engineer, Construction Management

1987 - 2008, 21 years

Held a variety of management positions including Resident Engineer, Construction Manager and Area Construction Manager; directly responsible for major projects ranging from new freeway construction, multi freeway interchanges, safety and seismic improvements on major bridges and tunnel structures, and emergency projects in response to landslides, flooding and earthquakes. Successful delivery of over \$500 Million in transportation infrastructure projects while leading teams of engineers ranging from groups of 8 to 50 on individual projects. Coordinated work with contractors, internal and external stake holders, local, state and federal government agencies as well as consultants in design, project management and various other disciplines.

Notable Projects:

- ❖ 4 1/2 miles New Freeway Construction (included 4 bridges, 2 pump stations, creek lining, sound and retaining walls)
State Route (SR) 85 in Santa Clara County
Partners: Santa Clara Transportation Authority and Caltrans
\$180 Million, 3 years construction duration

- ❖ Highway Realignment and New Interchange
SRs 29 and 37 in Solano County
Partners: Caltrans and Federal Highway Administration
\$80 Million, 3 years Construction Duration
- ❖ Freeway Interchange Reconstruction
I-580/I-680 in Alameda County
Partners: Alameda County Transportation Authority, BART and Caltrans
\$60 Million, 3 years Construction Duration
- ❖ Emergency Landslide Repair Projects
SR 1 in Marin and Sonoma Counties
Partners: Federal Emergency Management Agency, Caltrans
\$30 Million, 1 year Construction Duration
- ❖ Replace Washed-Out Bridge
SR 128, Russian River Napa County
Napa County Transportation and Planning Agency, Napa County Flood District, Caltrans
\$35 Million, 2 years Construction Duration
- ❖ Maxwell Bridge Construction
Napa River, Napa County
Partners: Napa County Transportation and Planning Agency, Napa County Flood District, Caltrans
\$35 Million, 2 years Construction Duration

Notable Achievements:

- ❖ Excellence in Partnering Bronze Award from Caltrans, for the Russian River Bridge Replacement Project.
 - ❖ Excellence in Partnering Award by AGC for the Russian River Bridge Replacement Project.
 - ❖ Partnering Success in Motion Award for Marin SRs 101/580 Interchange Reconstruction Project.
 - ❖ Project of the Year Award for the Maxwell Bridge Replacement Project in Napa County.
 - ❖ Certificate of Appreciation for completing nine emergency repair projects over one winter SR 1 Marin County, all on time and under budget.
 - ❖ Excellence in Partnering Award by AGC SRs 37/29 Interchange and Roadway Realignment Project.
 - ❖ Tranny Award, Excellence in Transportation, SRs 37/29 Project.
 - ❖ Individual recognition by the Director of Caltrans, Excellence in Transportation Award for the Route 37 Widening Project.
 - ❖ Safety Project of the Year Award by Solano Transportation Authority I-80, Median Barrier, Safety Project.
-
